---

## PROFESSIONAL SUMMARY

Results-driven Frontend Web Developer with hands-on experience building responsive, accessible, and high-performance web applications using HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js, and Next.js. Passionate about transforming complex ideas into intuitive digital experiences through clean, scalable code and modern UI/UX principles. Adept at API integration, component-based architecture, responsive design, and performance optimization. Committed to continuous learning and leveraging technology to solve real-world challenges with innovative, user-centered solutions.

---

## TECHNICAL SKILLS

Frontend: HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js, Next.js, TypeScript.  
Backend Familiarity: REST APIs, Node.js, Express.js, PostgreSQL, Prisma ORM.

---

## PROJECTS

### Shop 12 (Modern E-Commerce Platform) (*React, Next.js, Tailwind CSS, Axios*)

- Built a responsive e-commerce application featuring product listings, dynamic routing, shopping cart functionality, and REST API integration.
- Implemented reusable components, global state management, and optimized user experience across devices.

### Smart Waste Management Dashboard (*Next.js, React, Tailwind CSS*)

- Designed and developed an interactive dashboard for waste reporting, environmental monitoring, and analytics with a focus on usability and scalability.

---

## CORE STRENGTHS

Problem Solving • Clean & Maintainable Code • Component-Based Architecture • Responsive Web Development • API Integration • Performance Optimization • Cross-Browser Compatibility • Team Collaboration • Attention to Detail • Continuous Learning

---

## EDUCATION

B.Sc. Environmental Management and Toxicology  
Federal University of Agriculture, Abeokuta (FUNAAB)

---

## CAREER OBJECTIVE

To contribute to forward-thinking engineering teams by building scalable, user-focused web applications that deliver exceptional digital experiences and solve meaningful business challenges through modern frontend technologies.
